

Job Description

Title: Business Analyst

Department: Finance and Accounting

Position Type: Full-time

Location: Luxembourg

JOB RESPONSIBILITIES

Established in 2015, PingPong Financial is a rapidly growing Fintech company with locations in the United States, Hong Kong, China, Japan, and Luxembourg. PingPong is recognized globally as an innovative payment provider for global e-commerce merchants.

We are seeking a Business Analyst who will be based in Luxembourg and will be responsible for providing assistance to the company's EU finance and accounting function, and for executing various other projects related to cross-border money transfer for a regulated Payment Institution. The report line is the Finance and Accounting Manager of PingPong Europe S.A.

The main responsibilities of the role will be:

- Assist with the execution of the company's cross-border transactions
- Design and carry out processes for new customer incentive strategies
- Complete detailed financial analysis including financial reporting, accounting, and business volume projections
- Reconcile transactions and other financial data as needed
- Prepare business reports by collecting, analyzing, and summarizing information
- Coordinate closely with other functions including IT, business development, compliance, and customer service

QUALIFICATIONS

Education and Experience

- 4-year university degree or above in finance, accounting, or other relevant field of study
- 0 to 2 years working experience in payments, finance, accounting, or other related area

Skills and Abilities

- Strong written and spoken communication skills, analytical and leadership skills
- Fluency in English is required; skills in Luxembourgish, German, French, or Chinese are preferred
- Self-starter with ability to flourish in high-pressure environments
- Organized, autonomous, and pragmatic with sound judgment
