

Project Manager (m/f)
Luxembourg
Immediate hire

WHO ARE WE?

Mercedes pay S.A. is a young, innovative start-up in the field of mobile/online payment. Our goal is to establish the new standard for payment processes. 'Mercedes pay' is the electronic payment system for services provided by the Daimler Group. It is a fundamental component of Daimler's mobility and digitalization strategy. As a part of the Daimler group, we are ambitious to make the products and services that Daimler offers even more appealing with the new payment system.

We are looking for an experienced **Project Manager** to deliver every project on time within budget and scope. He/she should have a background in business skills, management, budgeting and analysis. The Project manager should get the best out of the people and projects and thrive when planning projects and working with project teams.

WHAT DO WE OFFER?

- You are contributing to the future of a fast growing and sustainable company
- You are able to work with a young team of highly motivated and skilled top performers
- You can enjoy working in an open environment with high flexibility and agility
- You will be rewarded with an attractive remuneration package
- You can enjoy attractive additional benefits such as team events and company pension

YOUR ROLE:

- Coordinate internal resources and third parties/vendors for the flawless execution of projects
- Ensure that all projects are delivered on-time, within scope and within budget
- Developing project scopes and objectives, involving all relevant stakeholders and ensuring technical feasibility
- Ensure resource availability and allocation
- Develop a detailed project plan to track progress
- Use appropriate verification techniques to manage changes in project scope, schedule and costs
- Measure project performance using appropriate systems, tools and techniques
- Report and escalate to management as needed
- Manage the relationship with the client and all stakeholders
- Perform risk management to minimize project risks
- Establish and maintain relationships with third parties/vendors
- Create and maintain comprehensive project documentation

OUR REQUIREMENTS:

- Great educational background, preferably in the fields of computer science or engineering for technical project managers
- Proven working experience as a project administrator in the information technology sector
- Solid technical background, with understanding or hands-on experience in software development and web technologies
- Excellent client-facing and internal communication skills
- Excellent written and verbal communication skills
- Solid organizational skills including attention to detail and multi-tasking skills
- Strong working knowledge of Microsoft Office

This is a full-time job. We particularly welcome applications from disabled persons.
